

SOGS motion

*Whereas* Student Organizational Grants provide much needed funds to various student projects and is a key initiative of the Social Science Students' Council;

*Whereas* written applications do not always provide an adequate amount of information regarding a request for funding;

*Whereas* it can be difficult for the Finance Committee to determine grant amounts based solely on a written proposal;

*Be it resolved* that students applying for Student Organizational Grants have the option of appearing before the Finance Committee in order to provide additional information regarding their proposal and answer any questions that the committee may have.
